A Word From Ms. Rupali

Creating a peaceful child is a central focus of a true Montessori education. Children learn about inner peace which allows them to be focused, calm and understanding of their own emotions. Once inner peace is achieved, they can then turn their focus on outer peace, which is creating a more peaceful world

Alpha Montessori School is on a mission to change the world into a more peaceful place by encouraging our students to give to those who are less fortunate. This October, children are challenged to collect money for Unicef. Unicef was mandated by the United Nations 70 years ago and is on a mission to bring clean water and lifesaving medicine to families in third world countries or areas without readily accessible resources. Alpha Montessori has been raising money for Unicef for nearly a decade, and it fills my heart every year to see the generosity of our families. We have a goal of raising \$2500 this year for Unicef! Instead of trick or treating for candy, consider having your child bring along

their Unicef box to collect donations as well.

one interaction at a time.

In a Montessori environment, conflicts are resolved by empowering children to use the Peace Rose. Whoever holds the peace rose is the speaker and the other child listens. Then, the roles are reversed. Once a resolution is reached, they both hold the stem and share a peaceful moment while sharing the rose.

Aayush Bedi and his family were chosen for family of the month.

They have been a part of the Alpha Montessori family for more than 2 years now, and he recently began his journey in the

Hickory Elementary Class!

Family of the Month
